IND-EX

Eiil's Young Leaders Programme

2-day INTERACTIVE

online workshop to help young talents develop leadership skills.

Young professionals and students working together in groups with experienced industry leaders to identify, learn and practice the skills that have made them successful in their careers.

HOW DO WE WORK?

'Learning by doing' method of coached interview-review cycles, observation, task and project work, in small mixed-experience groups, in a workshop of 20 – 30 people.

DEVELOP SKILLS

Creative problem-solving; effective team-working; interviewing and listening; self-development; influencing; effective networking.

TIMINGS

- From 8:30/9:00 to 18:00 CET
- Afterwork 'drinks' to have an informal networking session

YOU ARE:

- In the first 1-2 years of working experience after your study.
- (normally under 30 years old).

WILLING TO:

- Work in uncertainty, in a self organized environment with limited structure.
- Work with, and get the best from, a group of mixed abilities and backgrounds including students with limited workplace experience.
- Develop your ideas with useful insights into a managerial approach which can be applied to projects at work.
- Practice networking both inside and outside to the company.
- Exchange good practices and benchmark.
- Find collaborators and interesting partners which will help in your future careers.

INTERESTED IN:

- Self-reflection and personal learning.
- Developing an understanding of skill development.
- The attraction and development of other younger talent for the benefit of themselves and of their organization.
